## Fund Objective & Profile

The Fund is for conservative asset allocation and to protect long-term investments from capital gains tax (CGT). Within the Fund, investors do not pay CGT when the Investment Manager changes the Fund's asset allocation – e.g. the manager can sell shares if markets are high and go to cash without incurring CGT.

The investment objective of the Fund is to aim to preserve and grow capital over the medium to longer term. Capital is in fact at risk and there is no guarantee that a positive return will be achieved over any period.

The Fund seeks to meet its objectives through investing in a diversified portfolio of assets, mainly equities (and at times, significantly so) as well as bonds and cash. The portfolio will be actively managed with asset allocations varying based on the Investment Manager's views as to whether equity markets are over or undervalued.
